HUNTING FOR A BUYER—for anything whatever—is a pretty hard task if you have to do it in person; and a pretty easy one if you do it "by want ad" in the Daily and Weekly Chieftain. Small trades make great profits—and small ads make a great number of small trades. Try a want ad in the Chieftain.

#### Try An Experiment.

It has been said that the man or woman who can read all of the want ads in a newspaper without finding one that stirs a little personal interest, or appeals to him or her in any way, is without human interest or needs.

Whether or not this is true, it may prove an interesting experiment for anyone, not already in the habit of reading the classified ads, to look over them carefully for one day. It may help you to learn how far you may have drifted from "the ways of the world"—how far aloft you may be living from the small occasions and affairs of the day's life. Watch the classified ads in the Chieftain.

## Home Comforts

IN THE HOME ELECTRICITY has revolutionized the work, greatly lightening the labor of the Housekeeper. She may have an Electric Fan near the ironing board with no fear of cooling the iron. The current which keeps her cool, keeps the iron hot. She may work away all day, sitting down if she chooses, with no journeyings to the hot stove to change irons. One iron will do it all, from a lace collar to a damask table cloth. A steady, even heat, and no scorching off delicate fabrics with too hot an implement. Ask for one on trial. We will do the rest.

**Iron, \$4.00**

Operating Expense, 2½c per hour.
